The Court would diligently watch the progress made in remedying the conditions. He wished them to investigate thoroughly the causes of the impurity of the water. It had existed for many years. If, upon investigation, municipal or other corporations or individuals in the county were found to have polluted the water of the Passaic River, they should be indicted. The appointment is for Mr. Holme's unexpired term which was supposed to end May 1, 1895, unless the courts decide that the new Excise law makes change in the term of the Commissioners.

BLESSING TO THE CONVENTION. The fourth session of the German Reman Catho lic Central Verein Convention was held yesterday at No. 222 East Fourth-st. In the course of the proceedings the Rev. Dr. Schroeder read a cable message from Rome, which had been sent by Car-dinal Rampolla, Secretary of State at the Vatican, containing the benediction of the Pope: Dr. Schroeder gave the Papal blessing, and then called for three cheers for the Holy Father.

The afternoon was taken up in the discussion and unanimous adoption of a series of resolutions. Section 3 of the resolutions was as follows: "The fruits of religious hatred and fanaticism

which of late years the secret societies have brought forth by endeavoring under the mask of patriotism, or Americanism, to ostracize Catholics must spur our Catholic societies to join their forces for the purpose of defending and preserving our religion, as well as our civil rights." Another extract was:

"We hall with joy the establishment of a Papal Delegation in the United States as a new proof of the paternal love and solicitude of our Holy Father for this country, and especially for the Catholic Church under the Stars and Stripes.

The resolutions emphasized the right of parents to send their children to schools of their own choosing, and as Catholics to establish and govern their parochial schools. The public schools came in for much criticism on religious grounds, "Senda as meet the requirements of a Catholic cluration, are those schools, and those only, in which religious instruction occupies the first rank among all branches of teaching. Although the sacrifices we make in founding and supporting our parochial schools are great and heavy, we nevertheless, expressly declare that we do not ask for our school work any State subvention. We assume most willingly these sacrifices to secure the eternal and the true temporal welfare of our children."

After the resolutions were adopted the convention selected Albany as the next place of meeting, and then adjourned. Delegation in the United States as a new proof of

in answer to a telegram which said that her sister was sick.

The people living in the house where the young woman died maintained the greatest reticence about the matter, and what the exact character of the house was could not be definitely learned.

Later it was learned that Frances Royles, or Mrs. Brown, as she was called, died from carboilc acid poisoning. Last night a woman who came to the door of the house said that the dead woman and her hirshand lived on the top floor. They occupied only one room. They came there about two weeks ago. Mrs. Brown was about twenty-eight years old, and it is believed that her maiden name was Royles. The husband was not at home when his wife took the poison.

only one room. They came there about two weeks ago. Mrs. Brown was about twenty-eight years old, and it is believed that her madden name was Royles. The husband was not at home when his wife took the poison.

At it o'clock in the morning Mrs. Brown was singing in the hallway, and appeared to be happy. Her sister came from Hariem to see her. The woman said that as far as she could observe Mrs. Brown and her husband lived happily together, and she was at a loss to understand why the wife took the poison.
